SimPad just got better

SimPad PLUS

SimPad PLUS is a device that makes simulation available at your fingertips - when and where you need it. SimPad PLUS's portability makes set up time and transportation faster, easier and more convenient. It provides the ability to make training more clinically relevant, helping prepare students to provide optimal patient care.

SimPad PLUS

What is SimPad PLUS?

SimPad PLUS is the upgraded version of SimPad using the latest technology. It provides you with an intuitive, easy to use interface, and the portability you need to deliver highly effective simulation based training.

Software:

SimPad PLUS runs the same suite of software as the standard SimPad, but it also has the capability to run a unique new software, using Bluetooth to connect to and control Premature Anne.

SimPad PLUS offers:

Improved user experience:
Our new hardware gives you a more responsive interface and a shorter boot time, allowing you to get started faster.

Bluetooth connection
required for the operation of Premature Anne

Better Wi-Fi connection:
Faster data rates, fewer disconnects, and a more enjoyable user experience with dual band wireless networking.

What simulators are compatible with SimPad PLUS?

Our newest simulators, SimMan ALS and Premature Anne are only compatible with SimPad PLUS.

All simulators, manikins, and task trainers currently being operated via SimPad, SimPad SkillReporter or VitalSim will be made compatible with SimPad PLUS during the course of this year.
